Re: ICWG Meeting/Beginning of WAIS Divide deep core
Date: December 11, 2006

ICWG meeting:
The 2007 Ice Core Working Group Meeting will be held in Irvine, CA on April 24 and 25, 2007. More information will be made available in the coming months but just want to make sure folks get the dates into their 2007 calenders.

WAIS Divide:
Joe Souney (UNH, WAIS Divide SCO) reports that on Saturday, December 9 at 13:45 the first core was recovered from the pilot hole for the NSF sponsored WAIS Divide Ice Core Project. This project has been in the planning phase for more than 15 years and it's great news to hear that 3450 meter ice core has begun. Congratulations and thanks to all those who have helped over the years. To learn more about the WAIS Divide ice core project, visit the project website at:
