Re: McMurdo Area Users Committee Meeting  
Date: June 3, 2008

The McMurdo Area Users Committee (MAUC) will hold its annual meeting on July 28. The purpose of MAUC is to provide advice and recommendations to the USAP prime contractor (currently Raytheon Polar Services) on the support of science projects using USAP resources and facilities. If you are a user of McMurdo station and have an operational issue you would like considered for discussion at our annual meeting please email me. I am the MAUC representative for "ice core sciences". Tom Neumann <tneumann@uvm.edu > is the "glaciological" MAUC representative. Peter Doran <pdoran@uic.edu> is the Chair of MAUC. Fell free to contact one or all of us.

A response by June 16 would be appreciated so we can develop the agenda.

Other MAUC members and past meeting notes can be found at:  
<http://www.usap.gov/conferencesCommitteesAndWorkshops/userCommittees/sctnMAUC.cfm>

Thanks and we look forward to your input.
