Re: Replicate coring science and implementation plan - Supporting Documents
Date: July 10, 2008

In the Replicate Coring Science and Implementation Plan MS word document sent out yesterday the supporting documents are not included. They are in a .pdf version (Replicate_coring_v2.5js.pdf) which was too large to send in an email. The .pdf version can be found on the news section of the WAIS Divide webpage: <http://www.waisdivide.unh.edu/news/index.html>

Apologizes for not explaining this yesterday.
