Conversation: NICL-SMO Update

To: U.S. Ice Core Community

Fr: Mark Twickler - National Ice Core Laboratory - Science Management Office (NICL-SMO)

Re: Update - July 19, 2010

Date: July 19, 2010

Couple Items below should be of interest to you:

1. Reminder: NICL Use and Samples Acquisition Policy
2. The latest issue of InDepth

1. Important Information for Scientists Interested in Using the NICL Facility, Obtaining Samples from NICL Ice Cores, and/or Storing Ice Cores at NICL

The U.S. National Ice Core Laboratory, supported by NSF-OPP and the USGS-Geological Division, houses ice cores recovered from Greenland, Antarctica and North America that are available for study. Ice cores are available to any qualified investigators. However, investigators must contact the NICL-SMO Scientific Coordinator (nicl.smo@unh.edu) before submitting a proposal to a funding agency and must include details of expected usage of the NICL facility in the proposal.

You must contact the NICL-SMO Scientific Coordinator at least three weeks before you submit your proposal if you:

- (a) plan on requesting samples from an ice core stored at NICL; and/or
- (b) plan on collecting a new ice core and would like to store it (even just temporarily) at NICL; and/or
- (c) would like to use the NICL facility for a core processing or for other labwork.

Your request will be reviewed and, if approved, NICL-SMO will provide a letter of core availability or use of NICL infrastructure, which must be included as Supplemental Information with your proposal. Investigators should familiarize themselves with the "NICL Use and Ice Core Sample Allocation Policy".

See: <http://nicl-smo.unh.edu/access/index.html>

2. The latest issue of InDepth is now available at: <http://nicl-smo.unh.edu/indepth/index.html>

Happy Summer

Names are added periodically to the National Ice Core Laboratory -
Science Management Office's email list. If you know of someone who
would like to be added, or you would like to be removed from the email
list please send a message to: nicl.smo@unh.edu
